To Register Contact

Maureen Edwards at maureene@deltadiablo.org

OVERVIEW: Participants will attend five 50-minute hands-on sessions during this day-long training seminar. **A total of 5.5 contact hours are available.** The presenters are as follows:

- **Hatch – “Online Process Monitoring”** Best maintenance practices for wastewater online process meters.
- **Huber Technology – “Screenings Wash/Press Maintenance”** Huber will provide hands-on training on a Huber Washpress machine. A fully trained Huber technician will review equipment maintenance items and provide a hands-on-demonstration of common activities including screw removal, brush change, and wear bar replacement. Audience participation will be encouraged.
- **ISCO Industries – “Fusing of HDPE Pipe”** The focus will be on pipe fusing techniques and best practices.
- **Netzsch – “PC, Lobe and Grinder Pumps Products and Maintenance”** Hands on experience with progressive cavity, rotary lobe, and grinder pumps. A factory authorized representative will review each product providing hands-on-experience for replacing normal wear items such as stators, liners, and mechanical seals as they relate to each piece of equipment. The factory trailer will provide the participants hands-on-experience with each technology.
- **VELODYNE** – Maintenance and troubleshooting for polymer activation systems.
